25X1 **MEMORANDUM FOR:** [REDACTED]
Chief, Domestic Networks Division, OC

25X1 **FROM:** [REDACTED]
DA Planning Officer

SUBJECT: Directorate of Administration Secure Voice Telephone Unit (KY-71) Requirements

REFERENCE: Memo to C/PS/MS/DDA from C/DND/OC, dated 10 December 1984, Same Subject

1. Attached are the (STU-II), KY-71 requirements for the Offices of the Directorate of Administration as requested in reference. Each responding office has listed their individual requirements and provided justification for their secure voice and/or data needs.

2. The Office of Personnel's (OP) objective to provide a speedier method of processing applicants for employment would be greatly enhanced by a quick and secure method of transmitting personal history and other applicant information to Headquarters from their field recruitment offices. The KY-71's data/facsimile capabilities would provide OP the opportunity to meet this requirement; consequently, it is ranked as the DA's top priority for KY-71 allocation.

25X1 3. The Office of Training and Education's (OTE) need for a secure voice upgrade [REDACTED], ranks as the Directorate's second priority for secure voice needs. OTE has attached to their response a copy of a Domestic Network Division study, completed in 1983, relative to these needs.

25X1 [REDACTED]

5. The order above, highest to lowest priority, constitutes a Directorate order of priority as requested in reference. However, if a target of opportunity arises within OC's installation schedule to service any of the requirements submitted by the individual offices, the priority order may be discarded and the opportunity should be taken accordingly.

6. The Offices of Data Processing, Finance, Information Services, Logistics, and Medical Services submitted negative reports by telephone.
